Introduction

Welcome to the seventh issue of *The SAR Activity Review – By the Numbers*, a compilation of numerical data gathered from Suspicious Activity Reports filed by depository institutions since April 1996, by certain money services businesses since January 2002, by casinos and card clubs since August 1996, and by certain segments of the securities and futures industries since January 2003. *By the Numbers* serves as a companion piece to *The SAR Activity Review - Trends, Tips & Issues*, which provides information about the preparation, use, and utility of Suspicious Activity Reports.

By the Numbers generally is published twice a year to cover two filing periods: January 1 to June 30 and July 1 to December 31. The numerical data from the filing periods is available for publication on the FinCEN website after the end of each period, usually in the spring and fall. The last issue of *By the Numbers* was published in May 2006 to cover Suspicious Activity Reports filed through December 31, 2005, and may be accessed through the following link: http://www.fincen.gov/sar_review_by_the_numbers_issue6.pdf

A review of the numerical data generated for Issue 7 of *By the Numbers* reveals some interesting facts. As of June 30, 2006, over 3.6 million Suspicious Activity Report forms had been filed with FinCEN.¹ Although the remainder of this publication provides detailed numerical data on those filings, some general observations follow for each type of form.
