Subject: Advance Notice of Proposed Rulemaking Provision of Banking  
Services to Money Services Businesses

Dear Director Werner:

The Money Transmitter Regulatory Association ("MTRA") appreciates the opportunity to comment on the proposed rulemaking. This letter is to respectfully request an extension of the deadline date for comments, noted as May 9, 2006, for an additional 60 days.

The Board of MTRA, the state regulatory body representing 37 states that license, examine, bond, and/or otherwise supervise various non-depository money transmitters in the United States, voted unanimously to request an extension to allow a more widespread distribution of the ANPR to the numerous money transmitters that are concerned with issues noted of interest in the ANPR. The Board also requests the extension to allow us the opportunity to prepare a comprehensive response.

Thank you for your consideration.

*Joseph E. Rooney*

Joseph E. Rooney, President
