Shouldn't the filer send in a new document for the biennial renewal?

If the filer sends in a new form for biennial renewal why have both part 4 and 5?

How about removing two signature blocks, just keep the checkmarks to indicate what the form is for (biennial renewal, amend, revoke, etc.), and just one signature block should suffice. Don't they have to sign every DEP they fill out?

Is each DEP type considered a completely new DEP? (initial designation, biennial renewal, exemption amended, exemption revoked)?
