# VII. Compliance with Time Limits/Status of Pending Requests.

(Please note that there are two median times that are reported in this section: (1) median time for processing completed requests and (2) median number of days that pending requests were in pending status. Days reported should be "working days" as opposed to "calendar days.")

# A. Median time for processing requests.

You should count days from the time at which a request is "perfected." You may separately report each track of a multi-track system (*multi-track processing--a system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks*. *Requests in each track are processed on a first-in/first-out basis*). The following are examples for obtaining the "median" number: Given seven requests completed during the fiscal year, aged 10, 25, 35, 65, 75, 80 and 400 days from date of perfection to date of completion, the total number of requests completed during the fiscal year would be seven and the median age of the completed requests would be 65 days. If there were six pending cases aged 10, 20, 30, 50, 120 and 200 days from date of perfection to date of completion, the total number of requests completed would be six and the median age would be 40 days (the average of the two middle numbers).

		agency using multi-track processing places in its fast track based on the volume and/or complexity of records requested). Requests approved for expedited processing are not included here.
		<ul><li>a. Number of "simple requests" processed (closed):138</li><li>b. Median number of days to process "simple requests": _35</li></ul>
		2. Complex Requests (Complex requesta FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested).
		<ul><li>a. Number of "complex requests" processed (closed):61</li><li>b. Median number of days to process "complex requests": _115</li></ul>
		3. Requests for expedited processing.
		<ul><li>a. number of expedited requests processed (closed):0</li><li>b. median number of days to process expedited requests:</li></ul>
	B.	Status of pending requests (bureaus using multiple tracks may provide number for each track, as well as total).
		<ol> <li>Number of requests pending at end of current reporting period:11</li> <li>(Enter the number from section V.A.4.)</li> </ol>
		<ol> <li>Median number of days that such requests were pending as of that date:22</li> </ol>
VIII.	pro	Imparisons with Previous Years. According to DOJ instructions, report here the number of expedited ocessing requests received and the number processed. Also report any other ms that need more detail or clarification.
IX.	Со	sts/FOIA Staffing.
	A.	Staffing levels.
		In completing this part regarding staffing levels related to FOIA/PA matters,

you should be careful to pay full attention to Line 2 as well as Line 1. Line 1 simply asks for the number of personnel who are involved in FOIA/PA matters

1. Simple Requests (report only if multi-track processing is used. If not

full-time. Line 2 asks for the number of personnel who have only part-time or occasional FOIA duties (even if merely sporadic), expressed in total numbers of work-years. For example, if your bureau had four employees working full-time on FOIA matters and three employees with part-time FOIA responsibilities, it would simply specify "4" on Line I.

To complete Line 2, however, you would have to determine, and then total, the individual work-year percentages for the three employees working on FOIA matters only part-time. If the first employee devoted an estimated 10 percent of her time to the FOIA, the second employee 30% of his time, and the third employee 15% of her time, then that would total 55% of a work-year. So for Line 2, you would enter ".55 work-years." Your entry for Line 3 would be "4.55 work-years." You will arrive at a figure for Line 3 by adding the number in Line 1 to the number (which could be zero) in Line 2.

1.	Number	of full-time	FOIA personnel:	1
----	--------	--------------	-----------------	---

- 2. Number of personnel with part-time or occasional FOIA duties: <u>.55</u>
- 3. Total number of personnel (in work-years): 1.55

#### B. Total costs (staff and resources combined).

In filling out this part, you are asked to provide three figures, based upon your bureau's best ability to calculate the costs of your FOIA activities. Line 1 seeks the total costs of FOIA-processing activities, including appeals. In completing it, you are asked to include the costs of your bureau's staffs "and all resources" that are devoted to these activities. To arrive at a comprehensive figure for this, your bureau must do its best to estimate the costs of these resources -- which may include such items as photocopying, postage, data-processing services, and other items of overhead that are reasonably allocable to your bureau's FOIA operations.

For Line 2, bureaus are likewise asked to provide estimates of the costs of their litigation-related FOIA activities. Such estimates should take into account the full range of the bureau's efforts that are undertaken in support of a FOIA litigation case, including attorney coordination with declarants, additional subject-matter experts, and other bureau program personnel.

1.	FOIA processing (including appeals): \$_\$142,753
2.	Litigation-related activities (estimated): \$0
3.	Total Costs: \$\$142,753
4.	Comparison with previous years. (Not required).

C.	Statement of additional	resources	needed f	for FOIA	compliance	(Optional).
