**ORDER TO AMEND AND SUPPLEMENT THE GENERAL PROVISIONS REFERRED TO IN ARTICLE 115 OF THE CREDIT INSTITUTIONS LAW**

I, ERNESTO JAVIER CORDERO ARROYO, Secretary of Finance and Public Credit, pursuant to the provisions of Article 31(VII) and (XXV) of the Federal Public Administration Law and Article 115 of the Credit Institutions Law; in exercise of the powers conferred upon me under Article 6 (XXXIV) of the Internal Regulations of the Secretariat of Finance and Public Credit; based on the opinion of the National Banking and Securities Commission [*Comisión Nacional Bancaria y de Valores*], [CNBV] issued via official letter number 213/RAPG-36218/2010 of June 8, 2010; and

**WHEREAS**

Over the past few years, several changes have been made to the legal framework for the prevention of transactions involving illegally obtained funds, particularly the strengthening of controls for the identification of clients and users, as well as the monitoring of transactions in foreign currency;

To supplement these measures, Mexico's financial authorities have been systematically collecting information on cash transactions conducted in United States dollars within the Mexican financial system;

An analysis of the information referred to in the paragraph above demonstrates that credit institutions in recent years have received large amounts of U.S. dollars, which may have been generated through unlawful activities and could, therefore, could pose a significant risk to the banking system;

In order to prevent the foregoing, certain credit institutions limited the purchase of cash dollars by individuals or legal entities in certain regions, cities, or branch offices in the country;

In view of this situation, the financial authorities and the credit institutions that conduct cash transactions in U.S. dollars have agreed that additional, uniform control measures applicable to such transactions must be designed and implemented, with the fundamental purpose of preventing the entry into the banking system of funds that may have been generated through unlawful activities;

In this context, the Government of Mexico decided to design a series of regulatory measures to meet the general public's need to exchange dollars for pesos while harmonizing banking policies applicable to the receipt of U.S. dollars in cash, through the establishment of certain requirements aimed at preventing transactions involving illegally obtained funds and terrorist financing;

The abovementioned measures will in no way prevent any person from acquiring the U.S. dollars in cash required to conduct activities or travel abroad, without prejudice to the rules requiring credit institutions to collect and report certain information in accordance with the amounts acquired;

Such measures will not affect the daily activities of the tourism sector, which is one of the sectors essential to the country's development;

Having heard the opinion of the National Banking and Securities Commission,

Hereby issue the following:
