FinCEN Designation of Exempt Person (FinCEN 110) Electronic Filing Instructions

Release Date October 2012 – Version 1.0

FinCEN DOEP Electronic Filing Instructions

The following instructions apply only to the electronic filing of the Designation of Exempt Person (DOEP) report, FinCEN Form 110, through FinCEN's BSA E-Filing System. These instructions do not apply to any other current or prior Bank Secrecy Act reports.

General Information

The Bank Secrecy Act and its implementing regulations require banks to file currency transaction reports on transactions in currency of more than \$10,000. The regulations also permit a bank to exempt certain customers from currency transaction reporting in accordance with 31 CFR 1020.315.

Banks are the only type of financial institutions that may exempt customers from CTR filing requirements. The term bank is defined in 31CFR 1010.100(d); and includes savings and loan associations, thrift institutions, and credit unions.

The customers that the bank may exempt are called "exempt persons." An exempt person may be a bank, government agency/government authority, listed company, listed company subsidiary, eligible non-listed business, or payroll customer.

A bank may, but is not required to, use this report to notify the Treasury that the bank has revoked the designation of a customer as an exempt person.

FinCEN encourages banks to use the exemption procedure to the fullest extent. FinCEN reminds banks of their continuing obligation to monitor for and report suspicious activity with respect to transactions of all customers, including currency transactions conducted by exempt persons.

General Instructions

1. Filing: The DOEP should be e-filed through the BSA E-Filing System. Go to <http://bsaefiling.fincen.treas.gov/index.jsp> to register. Any bank that wishes to designate a customer as an exempt person must file the DOEP no later than 30 days after the first transaction to be exempted.

2. Report Completion. Complete the report in accordance with instructions for each item. Unless there is a specific instruction to the contrary, leave blank any items that do not apply.

3. Dates. Enter all dates in MM/DD/YYYY format where MM = month, DD = day, and YYYY = year. Precede any single number with a zero, *i.e.*, 01, 02, etc.

4. Numbers. Enter all numbers such as identifying and telephone numbers as single number strings without formatting or punctuation such as spaces, hyphens, or parenthesis.

5. Addresses. Enter the permanent street address, city, two-letter state or territory abbreviation, and ZIP Code. Provide the apartment number or suite number, if known, following the street address. A non-location address such as a post office box or rural route number should be used only if no other street address information is available. ZIP Codes must be five or nine digits. ZIP Codes must be entered without formatting or special characters such as hyphens. For example, the ZIP Code 12354-6120 would be entered as 123546120. Complete any address item that is known, even if the entire address is unknown. No abbreviations are permitted in city names, which must be completely spelled out. A U.S. city name should match the city name used by the U.S. Postal Service for the associated state and ZIP Code. Use only the authorized U.S. Postal Service state, territory, or military address abbreviations found at <https://www.usps.com/ship/official-abbreviations.htm>. Foreign batch filers who are completing the Transmitter (1A) Record with foreign address information must use only the Canadian and Mexican state/territory/province codes and ISO country codes approved for use by FinCEN. For Canadian provinces and territories use the Canada Post Corporation codes found at <http://www.canadapost.ca/tools/pg/manual/PGaddress-e.asp#1380608>. For Mexican states and territories use the ISO 3166-2 three-letter codes found at http://www.commondatahub.com/live/geography/state_province_region/iso_3166_2_state_code_s. For all countries use the ISO 3166-1 two-letter country codes found at http://www.iso.org/iso/country_names_and_code_elements. Note: The ISO 3166-1 country list includes entries for all U.S. territories. Do not use these U.S. territory entries, which match the U.S. Postal Service abbreviations required in state fields, in any country field.

6. Prohibited Words. Do not use the following words or their variations in fields:

- a) AKA
- b) CUSTOMER
- c) DBA
- d) NONE
- e) NOT APPLICABLE
- f) OTHER
- g) SAME
- h) SAME AS ABOVE
- i) SEE ABOVE
- j) UNKNOWN
- k) VARIOUS
- l) XX

7. Name Editing Instructions. Because many names do not consist of a single first name, middle name, and last name, care must be taken to ensure these names are entered properly in the BSA SAR. This is especially important when there are separate fields for the last name, first name, and middle name. Some names have multiple surnames (family names) or multiple given names that do not include a middle name. Others may not be written in [first name] [middle name] [last name] order. Multiple surnames must be entered in the last name field. For example, Hispanic names may be written in the order of given name, father's last name, and mother's last name, e.g., "Juan Vega Santiago." Thus the surname "VEGA SANTIAGO" would be entered in the last name field with "JUAN" entered in the first name field. Some Hispanic surnames consist of three names (e.g., father's last name, mother's last name, and husband's father's last name in the case of a married woman). In that case all three would be entered in a last name field. Hispanic names do not have middle names, so a multiple Hispanic given name such as "Rosa Maria" would be recorded in the first name field. In some cultures names consist of multiple first names and a single family name, not necessarily in (first name) (last name) order. For example, the Korean name "Kim, Chun Nam" consists of the family name "Kim" and the first name "Chun Nam" separated by a comma and space. There is no middle name. In this case "KIM" would be entered in the last name field and "CHUN NAM" would be entered in the first name field. Nothing is entered in the middle name field. When an individual name is entered in a single name field it should be entered in [first name] [middle name] [last name] order regardless of any foreign naming conventions. Thus, "Kim, Chun Nam" would be entered as "CHUN NAM KIM" in a single name field. Punctuation and special characters should be used in names only when they are part of the name. For example, the period in "Expedia.Com" should be included because it is part of the name. Placing a period after a middle initial would be prohibited because the period is not part of the middle name. Abbreviations in names are prohibited unless an abbreviation is part of a legal name. Entry of middle initials is permitted when a middle name is unknown. A name suffix may be abbreviated, i.e. Junior can be JR, Senior can be SR, the Third can be III, etc.
